

# ALL ABOUT **TIANA & STAR**

1. Tiana has broken a lot of bones in her life-time! Can you circle the names of all of them?

**DID YOU KNOW...**

Fill in the gaps using the words below. The first one has been done for you.

Tiana and Star both have a condition called **brittle bone** disease. It means their \_\_\_\_\_ break very easily.

Tiana has broken a total of \_\_\_\_\_ bones and her sister Star has broken \_\_\_\_\_.

Their \_\_\_\_\_ has the condition too, but their older \_\_\_\_\_, Jasmine, doesn't have it.
